Lai Hong Wah

Software Developer (React)

Kuala Lumpur, Malaysia | hongwah25@gmail.com
Portfolio: hongwah.github.io | LinkedIn: linkedin.com/in/hong-wah-lai-704871238 | GitHub: github.com/hongwah

Summary

Software developer with experience modifying and debugging COBOL programs for a Corrugated Packaging System, now moving into front-end development with React. A background in technical support and service desk work keeps me focused on how software behaves for real users.

Skills

Front-end: React, JavaScript, HTML, CSS
Other languages: C#, COBOL
Tools: PuTTY, AnzioWin, ServiceNow

Projects

Slow Ember: Concept Coffee Brand Website (AI-assisted) hongwah.github.io/coffee

React, Vite, CSS

- Responsive website for a fictional coffee brand, made of reusable React components, including one SVG component that draws every product bag.
- Roast-level filtering and a brew calculator that works out coffee and water amounts using React state.
- Deployed automatically to GitHub Pages with GitHub Actions.

Work Experience

COBOL Software Developer Apr 2025 – Present

Prestige Atlantic Asia Sdn Bhd

- Modify COBOL print form and barcode label programs for a Corrugated Packaging System (CPS), handling around 10 print forms and 5 barcode label programs per day.
- Access and edit program source files through PuTTY and AnzioWin, and trace defects with a debugger.
- Refactor problematic code and run tests to validate fixes before production release.

Service Desk Agent Apr 2024 – Apr 2025

Fujitsu Systems Global Solutions Management

- Provided first-line support, logging and tracking incidents in ServiceNow to speed up problem resolution.
- Resolved common user issues using preset resolution scripts.

Technical Support Mar 2023 – Feb 2024

Sis Pos Sdn Bhd

- Installed and repaired POS hardware at client sites, including desktops, monitors, AIO terminals, cash drawers and thermal receipt printers.
- Configured printer IP addresses on desktops and AIO terminals.

Education

Bachelor of Information Technology (Honours) in Software Systems Development 2018 – 2022

Tunku Abdul Rahman University of Management and Technology
